DON'T JUST RUN THE SHIFT WIN THE SHIFT

We are leaders, partners and production support experts in the plants and facilities we maintain. For many years, TEAM Group has been providing safe, efficient industrial cleaning services for global automotive and manufacturing clients with tailored programs that deliver quality end results.

Our services range from world class consulting, to the planning and development of a comprehensive facility cleaning program. We support customers wherever they are, and whenever they need us, often directly onsite at the manufacturer or in planned projects. From technical cleaning, to facility management and innovative solutions for your factory, we provide solutions to improve your bottom line.

& ACQUIRED ROBINSON SOLUTIONS

As technology is revolutionizing the factory, automakers look further to supplier partners as platform for change. TEAM Group and Robinson Solutions help customers digitize their automation processes for continuous improvement, and make transformative use of new technologies applicable to the manufacturers ongoing daily production processes.

Since 1982, as an industrial cleaning specialist, TEAM Group has been providing its services to a wide variety of industries along the entire industrial supply chain. In October 2019 the company acquired Robinson Solutions, further integrating leading edge supplier technology-based systems. From a Business Operating Software Suite (BOSS), to our Paint Defect Solutions Software™ (PDSS), and applications our insights will drive you to excel tomorrow.
